## POLICEMAN REMAINS HOSPITALIZED WITH SEVERAL CHOP WOUNDS

**SAN IGNACIO TOWN, Cayo, Friday, March 5, 2010:**

A Santa Elena man is presently on remand at the central prison in Hattieville on the serious charge of attempt murder in connection with chop wounds inflicted upon a police corporal.

A police report to the media informs that at around 9:20 p.m last Thursday, February 25, 2010, **Police Corporal #38**

**Denroy Barrow** along with **Special Constable Norberto Rejon** were socializing in front of a chinese grocery store in Santa Elena Town when a male person arrived and reportedly began insulting the Chinese grocer. Corporal Barrow reportedly intervened and requested for the individual to remove himself from the area. A few harsh words were

reportedly exchanged between the police corporal and the man after which the man left the scene.

The police report informs that shortly thereafter Corporal Barrow and Special Constable Rejon boarded Rejon's car and were just about to drive off when the man reportedly returned to the scene but this time armed with a machete. He reportedly

walked directly up to the passenger side of the car and proceeded to inflicted several chop wounds upon the police corporal after which he fled the scene and disappeared into the darkness.

The injured policeman was transported first to the San Ignacio Community hospital with a chop wound behind the right ear as well as cut wounds to the index and middle fingers. He was prepped at the San Ignacio Hospital and later tranfered to the Karl Heusner Memorial Hospital in Belize City where up to press time on Friday morning he remains hospitalized.

## Thank You Belize Social Security Board

We take time out this week to congratulate the Management, Staff, and Directors of the Belize Social Security Board for taking affirmative action geared towards making life more dignified and pleasant for senior citizens across the nation. This is in relation to the collection of the monthly allowance for those benefiting from the non-contributory pension scheme.

As announced earlier this week by way of television advertisements, the new process came into effect on Thursday, March 4, 2010 whereby those benefiting from the scheme can now go directly to specified commercial banks to collect their allowances.

This new process has effectively eliminated the need for senior citizens to make two stops as was the previous arrangement whereby beneficiaries were subjected to form a long line at Social Security offices across the country to first collect the cheque after which they would enter another long line at the bank to redeem it.

While the long line, this Thursday morning, was flowing outside the Atlantic Bank on Burns Avenue in San Ignacio Town, the inconvenience was certainly reduced for these senior citizens as it was the only line they would have had to stand in.

It was similarly refreshing to have heard an Atlantic Bank employee, along the line outside the bank, advising several of those persons accompanying their relatives to the bank this Thursday morning that an authorization is all that is needed for relatives to redeem cheques on behalf of senior citizens thereby eventually eliminating the need for the elderly to make that monthly pilgrimage to the bank.

Several months ago we advocated for this specific change in the way these disbursements were handled. It is therefore only fitting for us to thank the authorities at the Belize Social Security Board for embracing the suggestion and transforming it into reality.

The Social Security Board has effectively listened and done its part. In appreciation thereof, the benefiting community must do its part to ensure that the process is not undermined by any means whatsoever including by way of fraud.

In protecting its interest, if legislation does not already exist, the Social Security Board should seek legislative changes geared towards the imposition of harsh penalties against anyone who by fraud endeavours to abuse this worthwhile humanitarian gesture.

### My Reflections on Sexuality and Sexual Health

*Submitted by WIN, Belize  
Thursday, March 4, 2010:*

I recently I had a very enlightening experience at a sexual health workshop which I would like to share with readers through the medium provided by the **STAR Newspaper**.

The facilitator was very versed on the topics that were presented. And he was very comfortable talking and explaining the different issues we dealt with at the workshop.

This, I believe, made everyone else feel comfortable to express

their views and ideas on the different topic. I especially enjoyed the talking circles that we were placed in.

We were able to share some of our deepest thoughts and beliefs about different topics and even shared some very personal experiences that will, of course, remain confidential.

I learnt so much about myself and became aware of many of the things society has instilled in me from I was a child that caved my thinking today.

This workshop made me see some of the devastating effects societies expectations have on individuals, family relationships, intimate relationships and all other people we may come in contact with.

I was especially moved by a video *"Once Upon a Boy"*; two scenes were especially moving: a scene where a gun was placed in the child's hands to shoot a doll and another scene where the boy's tears were erased when he was crying because he lost his girlfriend. Both of these events are very real in our Belizean society today, and this I think is one of the main reasons our society is experiencing so much violence; we teach our boys to play with guns and do not allow them to express themselves, about how they are feeling.

Through this workshop I have learnt that it's not our fault that we behave and think the way we do, but it is up to us, when we get empowered, to try and change some of those norms and expectations that are assigned to us from the day we are born.

I have changed my thinking and perspective in so many ways since this workshop and I've become more conscious of the things I say and do at home and in my classroom.

I now have a better relationship with my husband because I no longer put as much pressure on him to perform the way society says he should, being that he is a man. I also try to be conscious of the things I teach my child.

My husband didn't attend the workshop with me, but I feel that if he did we would have an even better relationship because he would have gotten empowered on a first hand basis, than for me to try and explain the content of the workshop to him.

Since men and women cannot live without each other and both are affected by the expectations of society, I believe that it would be a great idea to provide some of these sessions to couples, so that they can receive the information first hand and be able to discuss these issues on neutral ground.

# More Guns On The Streets Increases The Possibility Of The Loss Of Innocent Lives

BY: Wellington C. Ramos

**“Justifiable Use Of Force and Harm”** is a provision existing under the Judges Rules of the Laws of Belize.

When I was a Police Officer in Belize back in the late 1970’s, this provision existed under Chapter 77 of the Criminal Code of Belize. I cannot say with certainty if the chapter remains the same but the contents of the law should not have changed much.

Under this provision, a Police Officer can only use force depending on the circumstances he or she is confronted with in the execution of their duties.

Any Police Officer who uses excessive force against any individual, runs of risk of facing disciplinary charges which could be extended to criminal charges in a court of law depending on the seriousness of the injury caused.

Since my time in the Police Force, Belize has changed as it pertains to the type of crimes that are being committed and the criminals who are committing them.

Police Officers and citizens must always have the right to

defend themselves and their properties under any given circumstances if an intruder is attempting to cause harm to them or damage to their properties.

Today on many streets in the city of Belize gangs and criminals are walking around with various types of guns shooting innocent citizens at will without any due cause or justification. Pressure is now on the Belize Police Department to investigate these incidents and to arrest and bring these suspects to trial and possible convictions.

In the pursuit of these suspects there will be a few incidents of accidental shootings and false identities. However, Police Officer must try to exercise restraint when discharging their weapons.

If the police is to minimize random, unlawful and unjustified dangerous engagement, there must be clear and concise set of terms of engagement.

Whenever a Police Officer uses unjustifiable force against innocent citizens it will always cause public outrage and lead to strained relationship between the Police and the community

I recently received an email about the death of a young man who was allegedly shot by a Police Officer. From the news reports I have been monitoring, I heard on Love FM that the Police is investigating the matter.

While the matter is under investigation, the public should await the results before making any assumptions about the matter.

If the family of the victim is not satisfied with the results of the investigation, they will still have a lot of follow up actions that they will be able to use to get the entire truth in the matter.

The Minister of National Security, the Attorney General, the Ombudsman, the Director of Public Prosecutions and the Commissioner of Police, should be available for consultation by relatives seeking answers.

Until proven otherwise, I continue to have faith in Belize’s system of justice and therefore I am inclined to believe that the above mentioned guardians of the law would not be engaged in any form of cover up where a

Police Officer used excessive force which eventually resulted in the death of an innocent citizen. These guardians of Belize’s justice system should all be aware of the serious consequences such inaction on their part could cause in the maintenance of justice in Belize.

Whenever a Police Officer is carrying a loaded weapon he or she does not have much time to decide whether to discharge or not discharge that weapon.

In most situations the decision has to be made in a split second. However, the main question that he or she must always bear in mind is whether the suspect’s behavior poses an immediate threat to life and property.

An officer will not hesitate to fire that weapon when life and property is in danger. The consequences of the discharge of the weapon will then become another matter for discussion and question.

Police Officers who carry weapons should receive extensive training in regards to the terms of engagement.

In the case of elements of the Belize Defense Force, they are known to carry an instructional booklet on their person which clearly spells out their terms of engagement, which could quite possibly be the reason why we will notice that although heavily armed soldiers are engaged in regular patrols with the police on the streets of Belize City, very few, if any, are the reports of BDF soldiers indiscriminately discharging the weapons of war with which they

patrol.

Police must be trained to understand that they should not wantonly discharge weapons in public for no justifiable reason as every round discharged must be properly accounted for.

I firmly believe that the current Commissioner of Police, **Crispin Jeffries** will have this most recent incident thoroughly and promptly investigated.

In keeping with his sworn commitment to the people of Belize, the Minister of National Security, **Hon. Carlos Perdomo**, should demand that no stone be left unturned in getting to the very bottom of all allegations as it pertains to law enforcement officials engaged in murdering citizens of Belize.

In closing I must say that Police Officers in Belize, especially those patrolling the dangerous streets of Belize City, are under tremendous stress and as such they will not hesitate to defend themselves against those lawless criminals who now seem to have a free reign on the streets of the city.

### Concerns Of The Cayo Tour Guide Association

Wednesday, March 3, 2010

Dear Editor,

Allow us space in your newspaper to lodge our concern with the change in licenses for all vehicles in this important industry of tourism.

It is valid to note that tourism is a very important industry in our small, developing country.

It is also important to know that 25% of our GDP is a little over five hundred million dollars. This is what tourism is worth in this country today.

The point here is that this industry **MUST** be included in any and all planning that directly relates to the development of this country.

The traffic department did not consider this when they planned their latest change targeting all tourism industry transportation.

The Transport Department is now requiring the following:

a) Owners of vehicles engaged in the transportation of passengers traveling as tourists in Belize must change their license plates to green (*taxi plates*),

b) Drivers of these tourism vehicles must have a valid public transportation license and

c) Payment is to be made to Central Government and not to municipal governments has been the norm throughout the country.

The Cayo Tour Guide Association has a few concerns about these changes.

We will be discussing these very seriously in our next meeting coming up on Tuesday, March 10, 2010.

The major points of contention are:

1) If our license plates are changed from private to green plates, our opportunities to travel for tourism purposes across the border will automatically, without question, END. (*"Green" plates are not allowed to cross the border*)

2. If we change our license plates to green plates (Taxi), and our personal licenses are changed, then we should not be challenged when we park our 4 cylinder diesel engines downtown and in our villages to vie for a local fare. (*this is not our hope, but given the*

*circumstance, we too must make a living*)

3. Many of us are tour operators. At the BTB level, we already invest in taxation to be full-fledge tour operators in the industry. Tourism must be

### Mindless Meeting

Wednesday, March 3, 2010

Dear Editor,

On Friday, February 26, 2010, BECOL (*Belize Electric Company Limited*) fulfilled one the requirements in the ECP (*Environmental Compliance Plan*) for Chalillo and an order of Belize's Supreme Court, to hold a "*Public Session.*"

The purpose of the meeting was to inform the public about the impacts and catastrophic risks posed by the company's Chalillo Dam, as well as the precautions BECOL is taking—or *is supposed to be taking*—to lessen damage and danger where possible.

Whether by design or chance, BECOL picked a time and date that was least likely to attract a crowd.

Not only was the public meeting held on the last Friday of the month—the *day that people get paid*—but it was also the night of a concert at the next door inside the Broadster Stadium. At times, the music was so loud that it was impossible to hear the speakers from the public and BECOL.

What we did hear from BECOL did not ring true. For instance, BECOL's **David Reynolds** said that a dam break would cause flooding no worse than those experienced in the past—unless there is a major

treated with more respect than surprise policies.

4. A 30-day waiting period for Road Service Permit application approval can hardly be justified? Tourism will be dramatically affected here and this is unacceptable.

5. Payments are required to be made in Belmopan which begs the question: Why can't we pay for the permit at our respective

flood event. But don't worry, he said, that is supposed to happen only once every 1,000 years. He said the same thing at a meeting we attended at Chaa Creek a few months ago. When questioned about how this 1,000-year flood theory evolved, he said there are records.

At that point he was asked if we were supposed to accept everything he said. He replied "*Yes.*"

Does he think we should also have believed the claim of BECOL's **Stephen Usher** that it would take 500 years for the dam to fill with sediment, and that sediment is not a problem in the reservoir because the intake for the turbine is 7 meters above the reservoir bottom?

Does he think that we have forgotten what happened last summer when, after only 4 years of operation, the reservoir became so filled with sediment that it was released into the river, causing environmental havoc downstream, all to ensure that the turbines would keep running?

When it comes to the Chalillo Dam, it appears that we are supposed to accept all the outrageous and misleading things we are told and not question the logic or the contradictions of what they say.

*George and Candy Gonzalez*

traffic offices especially in light of the fact that Tourism is a very busy employer?

6. There is the possibility that we might have to pay additional dollars for our personal taxi licenses.

If the transport department sees it extremely important to collect revenues in lieu of the revenues the Central Government lost by giving the local governments the option of the traffic department revenues, we understand this new taxation change. However, there is no need for the logistical and plate change dramatics for the industry.

As mentioned before, this will unveil an entire heap of new drama that is unnecessary, and wasteful (*many of us have just changed to town plates and have just made our insurers change all the necessary numbers for our new plates*).

As indicate earlier, we will meet as an association shortly and consult with both Guides and Tour Operators on the way ahead.

It is unfortunate that consultation has to be done after the decision was made to make these drastic changes. It is our understanding that the Transport Department has already started to enforced this new policy much to the total surprise and at the expense and embarrassment of many Tour Guides on the road with guests.

This is a regrettable policy that the Transport Department is implementing this new policy which will breed spin off drama.

Tourism is too important to be placed in a situation of friction like this. It is not smart and this could all have been a smoother situation with prior consultation of the entire industry.

Respectfully,

**Joe Awe, For The Cayo Tour Guide Association**

# COPA CAYO OESTE 2010

Por: *Alejandro Rios*

**BENQUE VIEJO DEL CARMEN, Jueves, 4 Marzo 2010:**

Despues del exitoso marathon, que marco el inicio de la Copa Cayo Oeste en Benque Viejo del Carmen, arranco la primera jornada de este torneo de futbol el pasado sabado 27 en la cancha Marshaleck, arrojando los siguientes resultados:

A las 5:30 de la tarde, Real Benqueño flamante subcampeon del torneo anterior, no tuvo problemas para doblegar al debutante Juventus FC, la primera anotacion callo muy temprano al minuto 9 por conducto de **Abdiel Urizar**, sin embargo Juventus detuvo los embates tratando de salir en esporadicas escapadas, pero al minuto 42 **David Cruz**, burlo la defensiva y anoto el segundo tanto, asi se fueron al descanso; para la segunda parte, el profe Erick Puc realizo algunas variantes, pero **Allen Reyes** les volvio a anotar el tercero y definitivo al minuto 87, finalizando con el resultado de Real Benqueño 3 Juventus 0, el arbitro central fue **Julio Ayala**.

En el segundo encuentro, tambien hubieron goles al por mayor, ya que Green Machine sucumbio ante el cuadro de Flamengo por marcador de 5 goles a 1, el partido inicio parejo hasta el minuto 25, que Green Machine se fue adelante con una anotacion de **Melvin Contreras**, pero Flamengo picado por su amor propio, desconto dos minutos despues por conducto de **Gregory Segura** al 27, con el empate a 1 se fueron al descanso y recién iniciada la segunda parte Smart Osarobo mando a todos en pos de la victoria, entonces el experimentado **Jose Marroquin** anoto el segundo tanto al 51, y 6 minutos despues al 57 Jose Guerra anotaba el tercero, ya enrachados Victor Miranda anotaria el cuarto y quinto respectivamente al minuto 70 y 90 del tiempo corrido, poniendo asi el marcador final de Flamengo 5 Green Machine 1, el arbitro central fue **Anwar Hegar**.

El domingo 28 vio debutar en este torneo 2010, al campeon del marathon Arenal FC, que doblego al cuadro de Border Team por marcador de 2 goles a

cero, el encuentro fue parejo, ahunque los embates de Arenal fueron incesantes y si no hubiera sido por su guardameta **Moises Martinez jr**, realmente hubiera sido una goleada mayor, de echo los dos porteros hizieron su mejor esfuerzo no permitiendo goles durante la primera mitad, pero para la segunda parte una expulsion cambiaria las cosas, **Pedro Guerra**, se gano la primera tarjeta amarilla al 53 por una falta y al 62 la segunda tarjeta por reiteracion de faltas, consiguiendo por ende la tarjeta roja y dejando la defensa debilitada de Border Team, para su mala suerte **Ricardo Chaneck** anoto un autogol al intentar despejar un balon de peligro en el area, mismo que descompuso a un equipo que sin

jugar mal, no pudo frente a la rapidez de un Arenal que se perfila como fuerte favorito para este torneo, al minuto 69 ya sin su defensa central, **Angel Najarro** anoto el Segundo gol y definitivo, poniendo el marcador final de Arenal 2 Border Team 0, aqui cabe señalarse que aunque tienen un exelente cuadro, si no ponen diciplina de por medio, estaran padeciendo en cada encuentro, El arbitro central fue **Geovany Pinelo**.

En el Segundo juego de la tarde Falcons FC se despacho con la cuchara grande frente al otro cuadro del Area de Santa Cruz, el Falcons Jrs, por marcador de 8 goles a 1. Las anotaciones de Falcons FC fueron por conducto de **Daniel Cruz** con tres goles y se pone

## Be Careful Where You Leave Your Cell Phone

Several men are in the locker room of a golf club. A cell phone on a bench rings and a man engages the hands-free

speaker- function and begins to talk. Everyone else in the room stops to listen.  
MAN: "Hello"  
WOMAN: "Honey, it's me. Are you at the club?"

MAN: "Yes"  
WOMAN: "I'm at the mall now and found this beautiful leather coat. It's only \$1,000. Is it OK if I buy it?"  
MAN: "Sure, go ahead if you like it that much."  
WOMAN: "I also stopped by the Mercedes dealership and saw the new 2010 models. I saw one I really liked."  
MAN: "How much?"  
WOMAN: "\$65,000."  
MAN: "OK, but for that price I want it with all the options."  
WOMAN: "Great! Oh, and one more thing ..... The house we wanted last year is back on the market. They're asking 950,000."  
MAN: "Well, then go ahead and give them an offer, but just offer \$900,000."  
WOMAN: "OK. I'll see you later! I love you!"  
MAN: "Bye, I love you, too."  
The man hangs up.  
The other men in the locker room are looking at him in astonishment.  
Then he sets down the telephone smiles and asks: "Anyone know whose phone this is?"

The uncertain medical condition of the injured

The accused appeared before San Ignacio’s **Magistrate Anna Rachel Montejo** on Monday, March 1, 2010 and was remanded to the central prison

The state funeral for **Sir Barry Manfield Bowen**, 64, was held on Tuesday, March 2, 2010 inside a packed St. John’s Cathedral in Belize City. The mass was co-celebrated by **Bishop Phillip Wright** and **Cannon Leroy Flowers**.

After the service that body was transported to San Ignacio Town, accompanied by a large motorcade, where he was laid to rest beside his mother **Emilie Josephine Blancaneaux Bowen (1919-2004)** and his father, **Eric William Manfield Bowen OBE, JP (1908-1985)** on the family plot inside the Santa Rita Cemetery in San Ignacio Town.

The bodies of Michael and Jillian Casey and their two children were transported to New York on Wednesday, March 3, for funeral services in Albany, New York, USA.

According to Civil Aviation Officials, the investigation could take up to a year before a final determination can be reached as to the cause of this tragic accident. Notwithstanding, reports are surfacing that Sir Barry, a seasoned pilot with over 20 years flying experience, on a route he travels almost every day, might have suffered an **“unexpected health condition”** just moments before his plane

went down.

Sir **Barry Manfield Bowen** is survived by his wife **Lady Dixie Bowen** and six children, 5 sons: **Kevin, Micheal, Alexander,**

**Dustin and Courtenay**, and one daughter: **Shelly Bowen Stonesifer**.

May his soul rest in eternal peace.
