GANG, GUNS AND DRUGS AT THE HEART OF CRIME IN BELIZE

By: Wellington C. Ramos

The report issued recently by Assistant Commissioner of Police

Elodio Aragon Jr. and Lt. Col. David Jones from the Belize Defense Force on the successes of Operation Jaguar revealed that gangs, guns and drugs are three of the main culprits responsible for the escalation of crimes in Belize.

The report outlined the amount of firearms and ammunitions confiscated, the various types of drugs found and the number of arrest made for those found with drugs and weapons.

I am very disappointed that the report makes no mention of the arrest of individuals for forming and operating illegal gangs that are engaged in these criminal activities.

Until Belize comes up with a plan to deal with gang organizations, crimes will continue to increase because they will be committed by organized criminals.

Individual criminals are much easier to contain than are organized criminals because they normally operate by themselves and are afraid to get anybody else in their business for fear of being snitched upon by their accomplices and sharing the proceeds of their loot with them. This reduces the amount of people who are engaged in a criminal activity.

On the other hand, organized criminals have an organization that provide them with all the necessary materials and supplies needed to commit crimes. Most of the crimes they commit are well planned and organized by the members of their groups and each member has a vital role to play in the execution of the crimes. This leads to the increase in crimes and the amount of people who are engaged in the activity on a daily basis causing it to be out of control.

Most of their activities are done in secrecy based on a pledge and oath. The breaching of oaths normally have severe punishments which could include death. Many people who

are in these organizations would rather die for what they believe in than to rat on their fellow gang members or organizations due to fear of personal retaliation or severe consequences against members of their families.

Most of the murders committed in Belize City are the works of gang members and this fact is known by the government of Belize and the Belize Police Department.

Gang rivalry is on-going and perpetual and the hatred between gang members breathe violence that is never ending.

When there is a culture of gang rivalry a person is going to be killed almost everyday and sometimes for no justifiable reason.

In many cities in the United States members of gangs are killed over simple things colors and disrespecting or bad mouthing members gangs, symbols and what they stand for. Gangs in Belize came about in the early 1980's and most people paid little or no attention back then.

Still in the Aragon/Jones report there was no mention of gangs. Is it that the government of Belize is afraid of the gangs or they just do not want to get them upset?

An organization that is engaged in conducting illegal activities should always be a government's top priority because they pose a grave threat to the safety of law abiding citizens and they can destabilize a government as was witnessed recently in Jamaica.

Our government cannot put these issues on hold any longer and this is the appropriate time to bring about legislations to deal with gangs in Belize to stop this internal madness taking place in Belize.

Recently, Attorney **Rodwell Williams**, the law partner of our Prime Minister was gunned down in a well planned assassination attempt. This lawyer is a friend and business partner to the most powerful person in our country. The investigation into this crime must be thorough because we are not sure as to what type of message they could be sending to the people and government of Belize. We also do not know who were the

people behind planning this failed assassination.

I just hope and pray that the motive of this crime was not political because it will have wider implications and consequences. To make this bold move demonstrates their lack of respect for the people, laws and government of Belize.

The new Minister of Police and Public Safety is about to take office and we wish him well in taking on this huge task.

City and **Eamon White**, 22, Belizean mechanic of #29 Hibiscus Street also in Belize City.

When weighed in the presence of Young and White the weed tipped the scale at 10.9 kilos. Both accused persons were subsequently arrested and jointly charged for drug trafficking.

They appeared in court on Monday, June 7 where **Eric Young** pled guilty to the charge while **Eamon White** pled not guilty.

Young was consequently fined ten thousand dollars to be paid by September 30, 2010 in default of paying the fine he will spend three years in jail.

In the first surprising twist of events, apart from the fine Young

was additionally sentence to 3 years imprisonment.

Another surprising turn of events is that while Young pled guilty, it was expected that the charge would have been withdrawn against the Eamon White, **NOT SO!** The prosecution informed the court that it will proceed with the drug trafficking charge against White. He was consequently offered bail in the sum of two thousand dollars and ordered to return to court on Tuesday, July 27, 2010.

In a further surprising turn of events, with Young's guilty plea, no determination was made regarding the confiscation or otherwise of the car which remains parked on the compound at the San Ignacio Police Station.

Benque Viejo Police Recognizes Keshawn Tucker

BY: PC#140 Joshua McKoy
BENQUE VIEJO TOWN,
Wednesday, June 9, 2010:

Benque Viejo Police today recognized another student in its ongoing “Do The Right Thing Program”.

In a effort to reinforce socially desirable behavior among young people and to showcase positive student achievements, the Belize Police Department Benque Viejo Sub-Formation takes this opportunity to recognize **Keshawn Tucker**.

Keshawn is a 16 year old 2nd form Student attending Western Nazarene High School in the Village of San Jose Succotz in the Cayo District .

The program began at 9:00 am on Wednesday June 9, 2010 inside the school chapel with teachers and students in attendance along the School’s Principal **Mr. Dwight Tillett** as wekk as Benque Viejo’s Community Policing Officer **Constable #140 Joshua Mckoy** and the Office 2nd in Command of the Benque Viejo Police Sub-Formation, **Sergeant #598 Jesus Palma** who did the

official handing over of a Certificate of Achievement along with a congratulatory letter signed by **Commissioner of Police Crispin Jefferies** and

Amid Criticism, Engineers Defend World Cup Football

The engineers who have designed the official football for the 2010 World Cup have hit back at criticism of their ball by some players.

Fabio Capello said his players gave the new ball bad reviews, with some players saying it moves too quickly. And goalkeepers have claimed the

new Jabulani ball is difficult to handle.

But engineers at Loughbrough University claim that their tests show it is the most “consistent” football ever manufactured.

The football that former England international **Geoff Hurst** belted into the goal in the 1966 World Cup final was made

nominees for her record of accomplishments, good behavior and community spirit.

With this award, Keshawn now qualifies to enter the group of winners countrywide which will be announced later this year. Among other prizes, the National Winner will receive a scholarship and a fully loaded computer.

The Officer Commanding Benque Viejo Police, **Inspector Dinsdale Thompson** and the Staff of the Benque Viejo Police Sub-Formation, including the Community Policing Unit, extends heartfelt congratulations to Keshawn Tucker on her achievement while encouraging other students to follow her example.

from 18 pieces of leather, stitched together and fastened with laces.

We want a ball that is very consistent that allows the best players to shine” says **Dr. Andy Harland** from Loughborough University.

The new World Cup football is made from just eight pieces of shaped synthetic material glued tightly together.

The result - for the first time in football history, say the manufacturers - is an undistorted, perfectly spherical ball.

The engineers who helped design the ball, called the **Jabulani**, say it should be the most consistent football ever made.

Dr Andy Harland uses a robot to kick the ball. His set up is able to reproduce corners, free kicks, passes and shots on goal - even more reliably than David Beckham.

“Fundamentally, what we are trying to achieve is a ball that is very consistent that allows the very best players in the world to express their skills,” he says.

“So we’re not looking for a ball that behaves unpredictably which would benefit a player that’s not skilful. We want a ball that is very consistent that allows the best players to shine.”

His robot tests, which were supported by the ball’s manufacturer Adidas, showed that the Jabulani was better than previous World Cup balls.

¿Mercurio en el menú?

¿Qué es lo que no te está diciendo SALUD PUBLICA y el DEPARTAMENTO DE AMBIENTE sobre el pescado que comes?..

Mientras que la Majarra sigue siendo saludable para comer, algunas pruebas recientes del Río Macal han detectado niveles peligrosos de mercurio en otros pescados.

Salud Pública ha recibido los resultados de las pruebas de pescado del Río Macal hechos en Mayo, Octubre y Diciembre del 2009.

Estas pruebas muestran que el nivel de mercurio en el tejido del pescado es alto, especialmente en el Blanco (bocona). No debes comer este pescado o procurar solo cantidades muy pequeñas.

Los niños y mujeres embarazadas o que están dando pecho es mejor no comer este pescado.

Pescado

que tal vez debes evitar:

- Blanco (bocona)
- Tarpon
- Guapote (Tuba)
- Bagre Azul
- Sardina
- Peces que comen sardina

Si pesas 150 libras, NO deberás comer más de:

Blanco (bocona)	4 onzas por mes
Tarpon	8 onzas por mes
Bagre Azul	8 onzas por mes

Se ha identificado que el consumir mercurio y otros tipos de metales pesados son causales de daño al sistema nervioso, cáncer y enfermedades del riñón. Los niños y las mujeres embarazadas están a mayor riesgo si consumen pescado con altos niveles de mercurio.

BFLA Holds Successful Open Day

Dear Editor,

Kindly allow me space in your prestigious newspaper to express our deepest gratitude to members of the community.

On the June 4, 2010 BFLA, San Ignacio Branch held its first ever open day, where we had over two hundred students and visitors coming in to get information on sexual and reproductive health services offered at the center.

The event also provided fun and interactive activities to students of San Ignacio along with up to date knowledge and insight into relevant health issues within the community.

Ultimately this effort aims to inspire young persons to take a positive outlook on health related topics.

The event could not have been possible without the valuable help of the following persons:

San Ignacio/Santa Elena Town Council: **Mayor John August, Councillor Bernadette Fernandez, Administrator**

Vallan Hyde, Traffic Manager Karen Fernandez and council employees **Jaime Garcia** and **Donna Dawson.**

Special mention is in order for Mrs. **Arita Bedran** and her daughter **Nashla** who willingly volunteered their time to help on that day.

The successful event was organized by four volunteers from Queens Health Outreach. May God bless you all!

Aunty Aida Miller Laid To Rest

From Front Page

enjoyed the company of her family, friends and neighbors.

Aunty Aida is best known for the delicious food she cooked which she was always willing to share. When anyone visited, the first thing she would do, after making sure that visitor was comfortably seated, was to offer a plate of food, and who could refuse her food? In fact several of us always looked forward to sitting at her table. If it was that last spoon of rice or that last piece of meat, she would

give it up without hesitation.

After several months of illness, Aunty Aida passed away quietly during the early morning hours on Saturday, June 5, at her home in Santa Elena, Cayo,

Aunty Aida is predeceased by her husband **Herbert "Jimmy" Miller**, daughter, **Ruby Miller** and two sons, **Albert** and **Patrick Miller**.

She is survived by six daughters: **Elvira Galvez** (Houston), **Nora Torres** (San Ignacio), **Amelia Innis** (New York), **Amirna Matthews** (New York), **Dolores Miller** (Santa Elena) and **Patricia Miller** (Houston) and one son, **Herbert Miller Jr.** (New Jersey).
